(3) Syllabus

The Practical Training (PT) is a short-term employment that provides an opportunity to students of the 3rd and 4th year to apply knowledge acquired from their academic program and gain work experience via an internship in relevant bodies that cooperate with the Department of Geography.

The PT allows students to gain real-world work experience and prepare future graduate geographers for the working environment.

Students can be registered for the PT in the 8th semester and obtain 2.5 ECTS credits (which correspond to half-course credits) towards the total of 240 ECTS credits required for the Bachelor degree.

(4) Teaching and Learning Methods - Evaluation

Delivery:	Face to face in the work environment	
Use of Information and Communication Technology:	Yes ATLAS	
Teaching Methods:	Activity	Semester workload
	<i>Course total</i>	
Student Performance Evaluation	The PT Office collects data regarding the objectives of the PT in order to evaluate the annual performance of the program at the Department of Geography.
