📍 Cultural Center, Kalamata, Greece

Program

The scientific conference is organized around four thematic sessions:

Seismic Hazards

Earthquake processes, seismic risk, and lessons from past events.

Volcanic Hazards

Volcanic processes, monitoring, and geohazard assessment.

Tsunami Hazards

Tsunami risk, coastal impact, and preparedness.

Landscape Changes & the Last Mile

Landscape evolution, risk communication, Living Labs, and links between science, stakeholders, and local communities.

Registration

Scan the QR code to register for the scientific conference.
